OUR EQUIPMENT & OPERATING POLICY

CNAC flies Douglas DC2 and DC3 transports. These luxurious planes are sound proof; equipped with direction finding and other latest safety devices; air conditioned as well as steam-heated; carry 14 to 21 passengers, each provided with an air-cushioned adjustable seat with individual ventilator, a study light and a call-button. They combine speed with unexcelled comfort in air travel.

CNAC pilots, co-pilots, and radio operators. The pilot, a competent meteorologist, expert navigator and a veteran of thousands of hours of flying, either American or Chinese, commands the entire ship in flight. The copilot, possessing thorough training and extensive experience in flight, is his assistant. The radio operator has also met high standards of intelligence and training.

CNAC's Operating Policy. Our policy governing the flight of every CNAC plane over all routes at all times demands that SAFETY is always the first, and by far the most important consideration. Then PASSENGER COMFORT and SCHEDULE PERFORMANCE come next.
